EDUCATION

MARWADI EDUCATION FOUNDATION GROUP OF INSTITUTIONS,RAJKOT

Bachelor Of Engineering,Computer Engineering

August 2020 – July 2024

CGPA: 7.78

EXPERIENCE

SphereRays Technolabs Pvt.Ltd.

PHP Laravel Filament Backend Developer Intern

JANUARY 2024 – JULY 2024

Rajkot, Gujarat, India

- Developed multiple web applications using **Laravel** and **Filament**, including building complete admin panels, dashboards, forms, database structures, and role-based access control systems.
- Quickly learned PHP Laravel and the Filament framework within a month, enabling meaningful contributions to backend development.
- Improved database handling and performance using **MySQL** for structured data storage, queries, and reporting.
- Redesigned the admin dashboard UI using Tailwind CSS and optimized Filament forms, enhancing usability and reducing reporting time by **50%**.
- Gained hands-on experience in large-scale projects, strengthening skills in application architecture, structured workflows, and adaptive problem-solving in fast-paced environments.

PROJECTS

Oven On Wheels

NEXT.JS, NODE.JS, MONGODB, TAILWIND CSS, STRIPE

- Developed a modern, **responsive** Pizza Shop Web App using **Next.js**, featuring seamless online ordering, a clean UI, smooth **Framer Motion** animations, and custom loading screens for improved user experience.
- Integrated **Gemini API** to power an AI-based Pizza Customization Assistant, offering personalized pizza suggestions based on dietary needs, preferences, and past orders.
- Implemented secure user authentication with **NextAuth**, integrated **Stripe** for reliable payments, and built a dynamic **admin panel** to manage menus, orders, users, and categories efficiently.
- Deployed on **Vercel** with **99%** uptime, ensuring fast global delivery and performance; incorporated **Cloudinary** for optimized image handling and delivery.

MockMate

REACT.JS, NODE.JS, MONGODB, EXPRESS.JS, LANGCHAIN

- Developed MockMate, an AI-powered interview and exam preparation platform that generates personalized mock interviews and MCQ tests based on resume insights using **Gemini API**.
- Enabled real-time voice-based interviews through **VAPI** integration, with AI-driven **feedback**, interactive **chat history**, and intelligent skill evaluation to improve user performance.
- Deployed on **Vercel** with a scalable full-stack architecture, featuring **responsive and easy UI**, **dark mode**, secure **authentication**, and seamless API integration for smooth, cross-device performance.

Other Projects : Gym Web App, Real Estate Web app, C++ Path planning, Javascript Games

TECHNICAL SKILLS

- **Languages :** JavaScript, TypeScript, PHP, C++, HTML, CSS.
- **FrameWork :** Next.js, React.js, Node.js, Express.js, Tailwind CSS, Redux, Filament .
- **Concepts :** Data Structure and Algorithms, DBMS, Operating System, OOPS, Restful APIs, Version Control System, API Development, State management, Micro Services .
- **Tools :** Git, Gitlabs, Microsoft Visual Studio Code, Postman, Gemini AI Studio, Vercel, Chrome DevTools, MongoDB Compass, Docker

ACHIEVEMENTS

- **Secretary at Rotaract Club Rajkot Greater** – Coordinated events, led community initiatives, and managed team operations, enhancing organizational and leadership skills.
- **Team Leader at Hack This Fall Hackathon** – Developed a travel blogging website using HTML, CSS, and Vanilla JavaScript, leading the team from ideation to deployment and delivering a functional, user-friendly platform within the hackathon time frame.
