FULL-STACK DEVELOPER

Enthusiastic Developer with a passion for clean, user-centric designs, eager to contribute, innovate, and grow alongside the company.

EDUCATION

Marwadi Education Foundation Group of Institutions

Bachelor Of Engineering, Computer Engineering

- Graduated with 7.78 CGPA

Rajkot, Gujrat

August 2020 - July 2024

PROFESSIONAL EXPERIENCE

SphereRays Technolabs Pvt.Ltd.

PHP Laravel Filament Backend Developer Intern

Rajkot, Gujrat

January 2024 - July 2024

- I contributed to three live projects, including a core development role for a company's product and a maintenance role focused on debugging and issue resolution.
- I quickly learned PHP Laravel and its Filament framework within a month, enabling me to contribute effectively to backend development using MySQL for database management.
- Additionally, I gained exposure to large-scale projects, observing and understanding file structures and workflows, which enhanced my knowledge of application architecture. This experience showcased my adaptability, problem-solving skills, and ability to learn and deliver in a dynamic environment.

LEADERSHIP EXPERIENCE

Rotract Club Of Rajkot Greater

Honourable Secretary

Rajkot, Gujrat

July 2022 - June 2023

- As the Secretary of the Rotaract Club of Rajkot Greater, I successfully managed member data and actively contributed to the club's organizational activities. My role involved public speaking, engaging with higher authorities such as the PSI, the Governor of Rajkot, and other dignitaries, and maintaining accurate records of board meetings.
- I also participated in various events and led social service projects, demonstrating strong communication, organizational, and leadership skills while contributing to community development initiatives.

TECHNICAL SKILLS AND PROJECTS

Skills: Back-end Development | Front-end Development | Database Management | Object Oriented Programming | Modern Web development | Data Structures And Algorithms | Version Control System

Oven On Wheels

Next.js, React.js, Node.js, MongoDB, TailwindCSS, Stripe

- The Pizza Shop Web App is a modern Next.js platform for online pizza ordering and management. It features customizable pizzas, secure Stripe payments, and dynamic image handling via Cloudinary. A unique AI-powered Pizza Customization Assistant personalizes recommendations based on customer preferences, dietary needs, and order history, enhancing the user experience. The admin panel enables efficient management of menus, orders, users, and categories, making it an ideal solution for pizza businesses.

Taskly

Next.js, S3, Solana, TailwindCSS, Web3.js, Prisma

- This project builds a Web3 data labeling platform using Next.js, Tailwind, and Web3.js, enabling crowdsourced tasks with crypto payments via Solana. It features secure file uploads to AWS S3, robust backend design with JWT authentication, accurate worker payments, wallet integration, and transaction verification while ensuring security best practices for private key management.

Journey Planner

C++

- The Path finding Visualizer is a C++ project that demonstrates efficient route-finding using the A algorithm*. It visually simulates how the algorithm discovers the shortest path between two points on a grid, accounting for obstacles and varying traversal costs.

Other Projects: Real Estate Web App | Gym Web App | Filament Broker Management Web App
